Artistic Woodturning Dale L. Nish

From the Foreword: "After studying his first book, 'Creative Woodturning', I knew I had to get Dale Nish to instruct at the Woodturning Symposium, in Philadelphia, and fast! And he proved himself one of the best instructors we have had at any symposium. Dales's first book is one of the finest publications of its type. And this second book, 'Artisitic Woodturning', has the same quality and appeal. I can be used both as a resource guide to new and innovative techniques and approaches to the lathe and as a shop manual for jigs, turning techniques, and design and project ideas."..."A major portion of this book is devoted to projects. Ranging from the simple to the provocative, these projects can help the woodturner expand his level of excellence in woodturning. If you are a serious woodturner, this book, like Dale's first, belongs in your shop!" copyright 1980 Dale Nish. Brigham Young University Press. 255 pages including Index. Countless photographic illustrations throughout.
