*Political Analysis* provides an accessible and engaging yet original introduction and distinctive contribution, to the analysis of political structures, institutions, ideas and behaviours, and above all, to the political processes through which they are constantly made and remade. Following an innovative introduction to the main approaches and concepts in political analysis, the text focuses thematically on the key issues which currently concern and divide political analysts, including the boundaries of the political; the question of structure, agency and power; the dynamics of political change; the relative significance of ideas and material factors; and the challenge posed by postmodernism which the author argues the discipline can strengthen itself by addressing without allowing it to become a recipe for paralysis.
