Pre-Islamic Carpets and Textiles from Eastern Lands Friedrich Spuhler

Celebrates the earliest history of the Islamic world's great textile traditions through fifty beautiful carpets and fragments

The fourth volume in Thames & Hudson's celebrated series cataloguing the al-Sabah collection, this book features a unique collection of carpets and textile fragments from the pre-Islamic and early Islamic world. The Sasanian fragments fill a substantial gap in the early history of pile carpets, dating from the second to the eighth century AD, and make a valuable contribution of the understanding of local artistic traditions.

The second half of the book is devoted to post-Sasanian and Sogdian silks dating from the sixth to the tenth century. A wave of these beautiful textiles has reached the West since the turn of the 21st century, and here they are divided into variants featuring birds, mammals and mythological creatures, which retain their glowing colors and lively charm. 60 color illustrations
