African American Music: An Introduction

African American Music: An Introduction

American Music: An Introduction, Second Edition is a collection of seventeen essays surveying major African American musical genres, both sacred and secular, from slavery to the present. With contributions by leading scholars in the field, the work brings together analyses of African American music based on ethnographic fieldwork, which privileges the voices of the music-makers themselves, woven into a richly textured mosaic of history and culture. At the same time, it incorporates musical treatments that bring clarity to the structural, melodic, and rhythmic characteristics that both distinguish and unify African American music.

The second edition has been substantially revised and updated, and includes new essays on African and African American musical continuities, African-derived instrument construction and performance practice, techno, and quartet traditions. Musical transcriptions, photographs, illustrations, and a new audio CD bring the music to life.

Lynn Groff:

As a college student, I exactly feel bored to help with reading. If their teacher asked them to go to the library in order to make a summary for some publication, they are complained. Just small students that have reading's heart and soul or real their passion. They just do what the teacher wants, like asked to go to the library. They go to generally there but nothing reading very seriously. Any students feel that studying is not important, boring in addition to can't see colorful pictures on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever you want. Likewise, words say, many ways to reach Chinese's country. Therefore this African American Music: An Introduction can make you feel more interested to read.

John Montes:

Publication is one of the sources of knowledge. We can add our knowledge from it.
