From 200,000 B.C. to 1492, a Heretical History of Who was First... "The best book so far to answer the question 'Who discovered America?'...This important, spell-binding report replaces sugar-coated myths about Columbus's invasion of America with indispensable history." --Publishers Weekly "A thoughtful and challenging consideration of the many voyagers who might have reached the Americas by sea before the Nina, the Pinta, and the Santa Maria...Well informed and well written, always provocative if not conclusive, this is revisionist history with a vengeance --and about time, too." --Kirkus Reviews "Persuasively and emphatically disputes the fact that Columbus actually discovered America...A long-overdue tribute to a score of forgotten and disregarded explorers, adventurers, and sailors. Highly recommended..." --Booklist Patrick Huyghe is a writer, editor, and television producer. He spent two decades writing about science for magazines from Omni to Discover; produced television documentaries for WGBH and WNET; and is the author of nine books.
