The Milk Makers Gail Gibbons

Fresh and cold, foaming from a carton or bottle, milk is one of nature's most nutritious foods. For this, we must thank the milk makers.

In *The Milk Makers*, Gail Gibbons begins with the cow, describing its four-stomach method of producing milk, how it is milked on a modern dairy farm, and then how milk is transported to a dairy plant, processed, and loaded onto refrigerated trucks -- with other dairy products -- for delivery to stores.

Step by step, Gail Gibbons's clear, carefully researched text and crisply colorful pictures tell the wonderful story of milk.
