## **Some things are easy to fix...but are some meant to stay broken?**

When sixteen-year-old Jill Whitaker's mom walks out—with a sticky note as a goodbye—only Jill knows the *real* reason she's gone. But how can she tell her father? Jill can hardly believe the truth herself.

Suddenly, the girl who likes to fix things—cars, relationships, romances, people—is all broken up. It used to be, her best friend, tall, blond and hot flirt Sean Addison, could make her smile in seconds. But not anymore. They don't even talk.

With nothing making sense, Jill tries to pick up the pieces of her life. But when a new guy moves in next door, intense, seriously cute, but with scars—on the inside and out—that he thinks don't show, Jill finds herself trying to make things better for Daniel. But over one long, hot Arizona summer, she realizes she can't fix anyone's life until she fixes her own. And she knows just where to start...

As a scholar, I exactly feel bored for you to read. If their teacher asked them to go to the library or make a summary for some publication, they are complained. Just minor students that have reading's heart and soul or read their pastime. They just do what the teacher wants, like asked to the library. They go there but nothing reading seriously. Any student feels that examining is not important, boring as well as can't see colorful images on there. Yeah, it is to get complicated. A book is very important in your case. As we know that on this period, many ways to get whatever we wish. Likewise, word says, many ways to reach Chinese's country. Therefore, this If I Fix You can make you really feel more interested to read.
