## **Pulpit and Press** Mary Baker Eddy

This volume contains scintillations from press and pulpit--utterances which epitomize the story of the birth of Christian Science, in 1866, and its progress during the ensuing thirty years. Three quarters of a century hence, when the children of to-day are the elders of the twentieth century, it will be interesting to have not only a record of the inclination given their own thoughts in the latter half of the nineteenth century, but also a registry of the rise of the mercury in the glass of the world's opinion.
