The Cassandra Prophecy: Armageddon Approaches Ian Gurney

Using the secrets of numerology contained in the books of Daniel, the Old Testament prophet, and the Revelation of St John the Divine, this work reveals the Bible's greatest secret - Judgement Day. The conclusion of this revelation is that mankind's destiny has already been decided. The author examines ancient prophecies from many other sources and compares them with events taking place right now on earth. It predicts the death of Pope John Paul II, the Californian earthquake, world wide famine, and natural and environmental catastrophes the earth will face as we move into the 21st century. It also sees the beginning of a nuclear war, global economic collapse and the fall of the Roman Catholic Church. The book uses no coding system, no secret cypher hidden in ancient Hebrew or Aramaic texts and no mystic or astrological keys to reveal the secrets of the Bible's numerology. Instead it identifies and then corrects two fundamental errors in theological interpretations of the Biblical texts and then by simple arithmetic arrives at four precise dates. Of these four dates, three are in the past and are the three most important dates in the history of Judaism this century. The fourth date is very final - Judgement Day in less than 25 years.
