**Evidence in Context** Steve Lubet, Richard Moberly, Robert Burns

*Evidence in Context* is designed to create a fully contextual understanding of the law of evidence. It contains two relatively detailed case files, quite similar to the material a trial lawyer may have as he or she approaches trial. The first file is a murder case where the issue is the identity of the killer and the defendant is the estranged husband of the victim. The second file is a civil action for defamation brought by a former employee against her very wealthy employer. The cases raise realistic and challenging issues in the law of evidence and allow for a critical assessment of that law. They are followed by over three hundred problems for class analysis and discussion. These problems address the full range of evidentiary issues.
