By 1907, staff at the Tianjin YMCA were rallying their Chinese charges with the cry: *When will China be able to send a winning athlete to the Olympic contests? When will China be able to invite all the world to Peking for an International Olympic contest?* Nearly a century later, on the eve of China's first-ever Olympic games, this innovative book shows for the first time how sporting culture and ideology played a crucial role in the making of the modern nation-state in Republican China. A landmark work on the history of sport in China, *Marrow of the Nation* tells the dramatic story of how Olympic-style competitions and ball games, as well as militarized forms of training associated with the West and Japan, were adapted to become an integral part of the modern Chinese experience.
