Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology)

Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology)

Cooperative working environments and their development are becoming increasingly important and ever more frequent in different industrial sectors and this book provides a scientific approach for managing Team Engineering. Meta-cognitive knowledge and networks are identified as the key resources enabling engineering teams to work effectively and to reduce engineering time and this book illustrates how computer support can aid cooperative work within the context of practical methodologies and examples.

The fields covered in the book include:

- State-of-the-art research in cooperative learning tools;
- Practical examples and methodologies illustrating the implementation of cooperative networks; and
- An interdisciplinary approach to team engineering.

This valuable new book is sponsored by the International Federation for Information Processing (IFIP) and will be essential reading for researchers, engineers, technical managers involved in the development of advanced applications for engineering and manufacturing, and software design and engineering.

From reader reviews:

Bobby Hall:

Why don't make it to become your habit? Right now, try to prepare your time to do the important work, like looking for your favorite book and reading a publication. Beside you can solve your problem; you can add your knowledge by the publication entitled Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology). Try to make book Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology) as your pal. It means that it can being your friend when you sense alone and beside those of course make you smarter than before. Yeah, it is very fortunated for yourself. The book makes you considerably more confidence because you can know almost everything by the book. So , let's make new experience in addition to knowledge with this book.

Raymond Bailey:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day to upgrading your mind proficiency or thinking skill also analytical thinking? Then you are experiencing problem with the book as compared to can satisfy your limited time to read it because all this time you only find reserve that need more time to be examine. Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology) can be your answer because it can be read by an individual who have those short spare time problems.

Patricia Whetsel:

Beside this particular Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology) in your phone, it could give you a way to get more close to the new knowledge or info. The information and the knowledge you might got here is fresh from your oven so don't possibly be worry if you feel like an old people live in narrow town. It is good thing to have Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology) because this book offers for your requirements readable information. Do you at times have book but you seldom get what it's about. Oh come on, that would not happen if you have this in your hand. The Enjoyable set up here cannot be questionable, similar to treasuring beautiful island. So do you still want to miss this? Find this book and read it from today!

Sandra Easley:

A lot of e-book has printed but it is unique. You can get it by internet on social media. You can choose the very best book for you, science, comic, novel, or whatever through searching from it. It is identified as of book Cooperative Knowledge Processing for Engineering Design (IFIP Advances in Information and Communication Technology). Contain your knowledge by it. Without departing the printed book, it could add your knowledge and make anyone happier to read. It is most important that, you must aware about

reserve. It can bring you from one place to other place.
