Designing Storage Area Networks: A Practical Reference for Implementing Fibre Channel and IP SANs (2nd Edition) Tom Clark

Written for network developers, IT consultants, administrators, and managers, this updated and expanded edition offers practical guidelines for using diverse SAN technologies to solve existing networking problems in large-scale corporate networks. This guide introduces the different types of SAN technology and demonstrates how each can best be used to address specific application challenges; from server clustering to ISP hosting, server-free tape backup to full-motion video editing.
