## Philosophies of Multiculturalism: Beyond Liberalism (Studies for the International Society for Cultural History)

This edited collection offers a comparative approach to the topic of multiculturalism, including different authors with contrasting arguments from different philosophical traditions and ideologies. It puts together perspectives that have been largely neglected as valid normative ways to address the political and moral questions that arise from the coexistence of different cultures in the same geographical space. The essays in this volume cover both historical perspectives, taking in the work of Hobbes, Tocqueville and Nietzsche among others, and contemporary Eastern and Western approaches, including Marxism, anarchism, Islam, Daoism, Indian and African philosophies.
