## **Observations Upon the Prophecies of Daniel and the Apocalypse of St. John** Isaac Newton

The mastermind of Sir Isaac Newton yields results just as brilliant when studying Bible prophecy as when he turned his attention to the physical universe! There is in this book a consistency of interpretation in all the details of the prophecies of Daniel and of Revelation not seen in many works by modern-day scholars. Isaac Newton seems to be completely true to the message of the Bible when providing his own thoughts on the Antichrist, the Beast, the Woman called "Babylon", and the "Great Tribulation". The integrity of Newton's scholarship and skills of exegesis give the reader a distinct impression that, unlike most writers on end-times prophecy today, when faced with a detail of interpretation that conflicted with his existing views, Newton would have gladly given up his prejudices in exchange for something better: the Truth. He also presents an excellent example of what is known as Premillennial Historicism. This is essentially the same view held by H. Grattan Guinness, E.B. Elliott, Matthew Henry, and Charles Spurgeon. Every pastor or teacher who preaches or teaches on the subject of the Last Days should have a copy of "Observations..." on his or her desk.
