**Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series)** John A. (Allan) Hattie, Douglas B. Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William L. Mellman

Rich tasks, collaborative work, number talks, problem-based learning, direct instruction...with so many possible approaches, how do we know which ones work the best? In *Visible Learning for Mathematics*, six acclaimed educators assert it's not about which one—it's about when—and show you how to design high-impact instruction so all students demonstrate more than a year's worth of mathematics learning for a year spent in school.

That's a high bar, but with the amazing K-12 framework here, you choose the right approach at the right time, depending upon where learners are within three phases of learning: surface, deep, and transfer. This results in "visible" learning because the

effect is tangible. The framework is forged out of current research in mathematics combined with John Hattie's synthesis of more than 15 years of education research involving *300 million students*.

Chapter by chapter, and equipped with video clips, planning tools, rubrics, and templates, you get the inside track on which instructional strategies to use at each phase of the learning cycle:

**Surface learning phase:** When—through carefully constructed experiences—students explore new concepts and make connections to procedural skills and vocabulary that give shape to developing conceptual understandings.

**Deep learning phase:** When—through the solving of rich high-cognitive tasks and rigorous discussion—students make connections among conceptual ideas, form mathematical generalizations, and apply and practice procedural skills with fluency.

**Transfer phase:** When students can independently think through more complex mathematics, and can plan, investigate, and elaborate as they apply what they know to new mathematical situations.

To equip students for higher-level mathematics learning, we have to be clear about where students are, where they need to go, and what it looks like when they get there. *Visible Learning for Math* brings about powerful, precision teaching for K-12 through intentionally designed guided, collaborative, and independent learning.

**From reader reviews:**

**Raymond Bryan:**

Here thing why this Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) are different and reputable to be yours. First of all examining a book is good but it depends in the content from it which is the content is as yummy as food or not. Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) giving you information deeper including different ways, you can find any guide out there but there is no guide that similar with Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series). It gives you thrill reading through journey, its open up your eyes about the thing this happened in the world which is possibly can be happened around you. It is possible to bring everywhere like in recreation area, café, or even in your way home by train. In case you are having difficulties in bringing the imprinted book maybe the form of Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) in e-book can be your substitute.

**Joe Garner:**

The actual book Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) will bring that you the new experience of reading some sort of book. The author style to clarify the idea is very unique. In the event you try to find new book to learn, this book very acceptable to you. The book Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) is much recommended to you to study. You can also get the e-book through the official web site, so you can quicker to read the book.

**Leslie White:**

The book untitled Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) is the book that recommended to you you just read. You can see the quality of the reserve content that will be shown to a person. The language that author use to explained their way of doing something is easily to understand. The article writer was did a lot of exploration when write the book, hence the information that they share for your requirements is absolutely accurate. You also will get the e-book of Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) from the publisher to make you considerably more enjoy free time.

**Pearlie Wong:**

What is your hobby? Have you heard in which question when you got scholars? We believe that that issue was given by teacher to the students. Many kinds of hobby, Everybody has different hobby. And you also know that little person like reading or as looking at become their hobby. You need to understand that reading

is very important and also book as to be the factor. Book is important thing to increase you knowledge, except your teacher or lecturer. You see good news or update concerning something by book. Many kinds of books that can you choose to adopt be your object. One of them is actually Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series).

**Download and Read Online Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) John A. (Allan) Hattie, Douglas B. Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William L. Mellman #B4HZFC7YX2R**

**Read Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) by John A. (Allan) Hattie, Douglas B. Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William L. Mellman for online ebook**

Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) by John A. (Allan) Hattie, Douglas B. Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William L. Mellman Free PDF d0wnl0ad, audio books, books to read, good books to read, cheap books, good books, online books, books online, book reviews epub, read books online, books to read online, online library, greatbooks to read, PDF best books to read, top books to read Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) by John A. (Allan) Hattie, Douglas B. Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William L. Mellman books to read online.

**Online Visible Learning for Mathematics, Grades K-12: What Works Best to Optimize Student Learning (Corwin Mathematics Series) by John A. (Allan) Hattie, Douglas B. Fisher, Nancy Frey, Linda M. Gojak, Sara Delano Moore, William L. Mellman ebook PDF download**
