Regions, Institutions, and Law of the Sea: Studies in Ocean Governance Jin-Hyun Scheiber

Regions, Institutions, and Law of the Sea: Studies in Ocean Governance offers fresh perspectives both on issues specific to major ocean regions, and on the nature and functions of institutions that implement the legal order of the oceans. Of special interest is a set of chapters by distinguished scholars and jurists providing nuanced analysis of the International Tribunal for the Law of the Sea as a key actor in the institutional and regime structure. Other expert authors contribute timely analysis of specific ocean uses in the context of implementation of "soft" and "hard" law.
