The Gridlock Economy: How Too Much Ownership Wrecks Markets, Stops Innovation, and Costs Lives Michael Heller

Twenty-five new runways would eliminate most air travel delays in America; fifty patent owners are blocking a major drug company from creating a cancer cure; 90 percent of our broadcast spectrum sits idle while American cell phone service suffers. These problems have solutions that can jump-start innovation and help save our troubled economy. So, what's holding us back?

Michael Heller, a leading authority on property, reveals that while private ownership creates wealth, too much ownership means that everyone loses. Startling and accessible, *The Gridlock Economy* offers insights on how we can overcome this preventable paradox.
